

Escape

To your own Alternate Reality

Multiple Alternate Realities. It doesn't matter if it is from your favorite book or television series; an anime series or blockbuster movie; a comic book that you remember as a child, or the role playing game you play with friends every week; a world you envision when the music plays, or the newest graphic novel. Heck, it could even be an imaginary world you snuck away to as a child, or maybe you still sneak away there when things get stressful.

MARcon is, at its core, a celebration of those places where we escape to. So let's celebrate what the MAR in MARcon is all about!

A premier science fiction and fantasy convention created by fans, for fans. Marcon began as just a sci-fi literary convention and has expanded to include many varieties of fandoms. We highlight the literary and educational parts of the fan genres, as well as the fun!
